

MAIN OFFICE:  
23 Mechanic Street  
PO Box 344  
Springville, NY 14141

7/26/10:

RJR Engineering is pleased to announce the addition of John Allan, CFPS to its staff. John comes with over 40 years experience in Fire Protection Program Engineering and Management including being the Chief of Fire Protection at RAF Woodbridge, UK and 18 years of fire protection system engineering and hazard analysis preparations at DOE and DOD facilities. If there is anything John, or anyone else from RJR can do for you or your organization, please give us a call.

RJR Engineering's primary focus is in the civil, structural, mechanical and electrical engineering disciplines, and we serve all client types: private, manufacturing/industrial, municipal & governmental. We do have several relationships in place that span from large, multinational companies to small and emerging businesses to help us meet the demands of project requirements, and client needs. We operate under an ASME NQA-1 Quality Assurance Program.
